Experience "THE DIFFERENCE" !

ARE YOU:

**SANDING ?
GRINDING ?
DRILLING ?
SAWING ?
ROUTING ?
COUNTERSINKING ?**

DCM Clean-Air Products, Inc. is the pioneer and leader in the design and manufacturing of systems for power hand tools designed for source capture of hazardous airborne dust at the "point of generation." DCM's innovative and patented designs for source capture systems provide the highest levels of breathing zone protection and ease of use for the operators. The core of our business lies in the retro-fit of most brand name power tools. Source capture at "point of generation" is offered with our complete line of sanders, grinders, drills, routers, scalers, power brushes, cut-off and trim saws, roto peens and our Worbst™ smoke and fume extraction systems for MIG welding applications. Our line also includes portable pneumatic and electric vacuums designed specifically for hazardous dust source capture. Our vacuums are the most powerful portable vacuums on the market and are available with or without HEPA filtration.

For those companies or individuals that have used dust collection systems before and have found them to be ineffective, cumbersome or more trouble than they are worth, we offer the following invitation. Let one of our trained technicians schedule a hands-on demonstration of our products in your facility in your working environment. We can safely say that if you do not find the DCM dust collection systems to be the easiest to use and most effective in reducing the incidence of hazardous airborne particulate then you will never be using dust collection systems as part of your work. We are confident enough in our products to state that "you have tried the rest – now try the best."

POSTIV-LOK
ALO RESINBOND
VACU-DISCS

Point of Generation
Capture of Hazardous
Airborne Dust Pollutants

Your Choice For General
Use Including Blending
Lightwelds, Breaking Edges
and Removing Parting Line
and Machine Marks.
A Versatile Product, Postiv-Lok
Vacu-Disc Can Also Be Used
For Working Mild Contours
As Well As Flat Surfaces.

Highest Speeds Can Be
Utilized To Reduce Labor
And Disc Costs.

Increased RPM's Result in
Faster Stock Removal, Thus
Reducing Finishing Time.

D-LEADIT
POSTIV-LOK
VACU-DISCS

Recommended For The
Removal Of Lead Based Paints.

D-Leadit Vacu-Discs Are
Constructed Of A Silicon-
Carbide Mineral Coating On
A Heavy Duty Fiber Backing.
It Is Designed For Edge
Trimming On Gelcoat
Fiberglass Parts. It is Also
Ideal For Aggressive Grinding
Or High Stock Removal On
Non-Metallic Parts.

*ADDITIONAL MANUFACTURER MODELS AVAILABLE - PRICED ON APPLICATION

This tool collects virtually all the dust at the "POINT of GENERATION" and can be used at various angles or upside down.

Benefits: Ergonomically designed for weight and balance.

Dust collection through the vacuum holes and around periphery decreases heat giving longer disc life.

Ideal for: De-paint, surface preparation, and corrosion removal.

SURF PREP VACU-DISC

A thick layer of abrasive grain bonded to reinforced non-woven nylon pad.

More rigid and aggressive buffing vacu-discs.

Recommended for the removal of heavy rust and oxidation and blending machine marks and other surface flaws.

BUFFING VACU-DISC

A non-woven nylon fibre impregnated with abrasive and laminated to Postiv-Lok Vacu-Disc nylon backing.

Permits higher grinding speeds without fly-off.

Produces a consistent uniform finish.

Point of Generation capture of Hazardous Air pollutants.

CARAT
PSA VACU-DISCS

Point of Generation Capture
of Hazardous Air Pollutants.

An all new product for dry
sanding applications.
Made with a tough
aluminum oxide abrasive,
these discs are ideal for use
on wood, plastic, aluminum,
fiberglass, and automotive
surfaces.

Your choice where tearing
and edge wear may be a
problem.

GOLD
PSA VACU-DISCS

Point of Generation Capture
of Hazardous Air pollutants.

A premium paper for finishing
as well as heavy stock removal.

Gold Vacu-Discs use a special
glue that makes disc removal
a snap. No more glue build up
on your ROS pads.

Discs can be removed from
your ROS, folded and used by
hand, then refolded and returned
to the ROS pas to finish your
machine sanding!

HOOK N' LOOP SURFACE PREP VACU-DISCS

Point of Generation Capture of Hazardous Air Pollutants.

A new product for surface preparation with point of generation capture of dust and pollutants.

The new HOOK N' LOOP pad allows for the use of DCM Surface Prep discs. The only surface prep discs manufactured for use on a dust collecting vacuum assisted random orbital sander.

Excellent for removing sub-straight. Available in four discs sizes and three grits.

DETAIL VACU-SANDER

Oscillating Triangular Sanding pad permits machine sanding in the most restricted corners and openings and on the narrowest of strips, edges, and profiles.

The Vacu-Pad does not rotate, but oscillates through only two degrees of angle at a frequency of 20,000 rpm.

"Point of Generation" dust extraction directly through the vacu-pad and vacu-sheets.

Vacu-Sheets are attached by a hook n' loop fastener to the vacu-pad.

High stripping ratings on practically all materials:

WOOD
PAINT
SYNTHETICS
or
PRIMER

VACU-DRUM SANDER

VACU-DRUM SANDER STARTER KIT

EACH KIT CONTAINS THE FOLLOWING:

- 1 EA Ergo Pneumatic (Air) Grinder
- 1 EA Vacu-Shroud Assembly
- 1 EA Drum Mandrel
- 1 EA Assortment of Vacu-Sanding Sleeves of
(20 EA - 36,60,80,120,240 Grit)
- 1 EA Vacu-Flex Hose Assembly

VACU-CUTOFF SAW KITS

VACU-CUTOFF SAW KITS

EACH KIT CONTAINS THE FOLLOWING:

- 1 EA Vacu-Cutoff Saw
- 1 EA Vacu-Shroud Assembly
- 1 EA Vacu-Flex Hose Assembly
- 1 EA Reinforced Cut-Off Wheel

- DCM Cut-Off Saw shrouds are fully adjustable to reveal only enough of the blade as necessary to make the cut. This allows for increased dust collection.
- Each DCM Cut-Off saw shroud has a "HORSE SHOE" sight to aid in making precise cuts.
- Custom diamond blades available. Call for price and availability.

VACU-DRILL KITS

VACU-DRILL KIT

EACH KIT CONTAINS THE FOLLOWING:

- 1 EA Vacu-Drill
- 1 EA Vacu-Shroud Assembly
- 1 EA Vacu-Flex Hose Assembly
- 1 EA Keyless Chuck
- 1 EA 1/4 x 6" OAL Drill Bit
- 1 EA 1/4" Drill Bushing
- 1 EA Plastic Vacu-Foot

DID YOU KNOW ?

DCM's Vacu-Drills collect virtually all the hazardous dust at the.....

"Point of Generation"

And.....

ELIMINATES:

Clean-up Time and Need for negative air containment.

IDEAL FOR:

Lead-Based Paint
Asbestos
Composites
Capturing FOD

COMPLIES WITH OSHA AND EPA REGULATIONS

DCM's Vacu-Drills, in many instances, can save you money by eliminating the need for PPE.

DCM's Backpack Vacuum is ideal for use with the above drills.

EACH KIT CONTAINS THE FOLLOWING:

- 1 EA 15 Gallon Wet/Dry Vacuum (Poly Tank)
- 1 EA HEPA Filter and Cover (units with HEPA)
- 1 EA Vacu-Flex Hose Assembly
- 1 EA Wet Pan Assembly
- 1 EA Wire Basket Assembly (units without HEPA)
- 1 EA Black Poly Liner
- 1 EA Disposable Hazmat Containment Bag
- 1 EA Air Hose Assembly

ELECTRIC WET/DRY VACU-SYSTEMS AVAILABLE:

15 Gallon Wet/Dry HAPS Vacu-System With HEPA			
P/N	1-5	6-11	12+
50020	1934.16	1837.45	1740.74
15 Gallon Wet/Dry HAPS Vacu-System Without HEPA			
P/N	1-5	6-11	12+
50025	1214.01	1153.31	1092.61

BACKPACK HAPS VACU-SYSTEM

EACH KIT CONTAINS THE FOLLOWING:

- 1 EA 2 Gallon Electric Poly Vacuum
- 1 EA HEPA Filter
- 1 EA Vacu-Flex Hose Assembly
- 1 EA Tool Kit (6 pc attachment set)
- 1 EA Disposable Hazmat Containment Bag

2 Gallon Poly HAPS Backpack Vacu-System With HEPA			
P/N	1-5	6-11	12+
50003	1582.10	1503.00	1423.89

* Backpack Vacuum or Tool Kit also sold seperately. Call for pricing.

VACU-TOTE

- **Heavy Duty**
Polyethylene Construction
- **Keyed-Lock**
- **Lid has areas for Padlock Security**
- **Resistant to Chemicals, Gas, and Oil**
- **Withstands Extreme Temperature**
- **Designed to Store and Tote DCM's:**
5 Gal HAPS Vac, Vacu-Flex Hose Assembly,
Air Hoses, Air and Electric Tools and much more.

DESCRIPTION

	P/N	1-5	6-11	12+
Vacu-Tote Storage Box (w/ wheels, handle and keyed lock)	00480A	150.16	142.64	135.14
Vacu-Tote Storage Box without wheels (with keyed lock)	00480	98.08	93.18	88.27

VACU-CART

- **DESIGNED to PROVIDE:**
Self Containment
Mobile Storage
Portable Work Station
- **SECURES:**
Tools
Vacuum Hoses
Airlines
Vacuum

The Vacu-Cart Provides a convenient way to store tools, hoses, and accessories while allowing ease of mobility during use.

MOBILE VACU-WORK CENTER

- Heavy Duty all welded construction
- Durable 14 guage steel welded sides with 12 guage steel shelves
- Lockable handle on 12 guage door
- Tubular handle with smooth radius bend for comfort and control
- 1200lbs capacity
- Powder Coated Finish
- Four key lockable drawers (6 1/25"h x 14 3/8"w x 19 1/2"d)
- Locking bar for drawers with pad lock
- Cabinet inside dimensions (30"h x 23"w x 24.5" d)
- Bolt on phenolic 6" x 2" caster (2 casters swivel at handle end with break and there are two ridgid casters in front of cart)
- Internal Hooks to Strap down hose

This mobile work center can be custom designed and built in many different configurations to meet the needs of the end user and the application

THE DCM *Clean-Air* DIFFERENCE !

ASSEMBLY INSTRUCTIONS & DCM Facts

DCM is the pioneer and leaders of point of generation source capture dust control. We collect the dust through the vacuum holes and around the periphery of the abrasive disc !

SHROUD ATTACHMENT

Slide shroud stand to bottom of head then hand tighten. Resist over tightening as this restricts bearings. WEAR EYE PROTECTION !

DCM manufactures vacuum shrouds that retrofit existing tools. Hazardous dust is then collected with DCM's portable HEPA vacu-systems specifically designed for hazardous source capture.

POSTIV-LOK DISC & HOLDER - ON

WEAR EYE PROTECTION to snap disc on ! Restrict Holder, grasp disc with thumb at center, wiggle disc, and turn counter clockwise 1/8 turn until you feel it drop into holder. Press and snap onto stud at center of the holder. Then turn clockwise.

We are the only manufacturer with the Postiv-Lok patented system. This patented system includes vacuum holes in the disc and holder with a mechanical locking device. The six holes in the disc consistently align to the six holes in the holder without needing adjustment each and every time

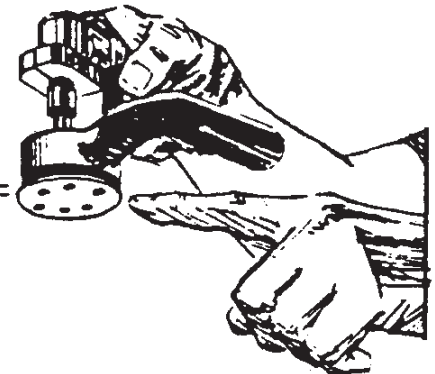

POSTIV-LOK DISC & HOLDER - OFF

WEAR EYE PROTECTION to snap disc off ! Restrict holder, grasp disc and turn 1/4 counter clockwise. Snap Off.

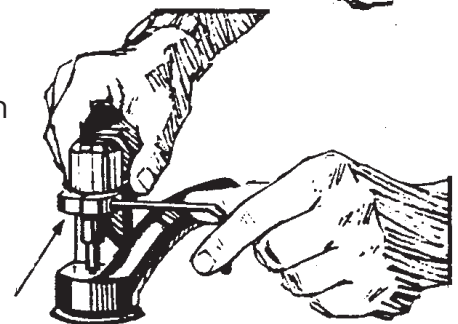

Our complete line of vacu-assisted hand tools include: grinders, sanders, drills, cut-off saws, trim saws, routers, scalers, needle guns, power brushes, and roto peens. Each shrouded system is designed for source capture at the point of generation.

www.dcmcleanair.com

DCM Clean-Air Products, Inc. strongly recommends using respirators while operating our equipment. However, after the operator's breathing zone tests are completed, your Industrial Hygienist and/or Safety Department may find the use of respirators unnecessary.

DCM Clean-Air Products, Inc.'s products sold by us or our distributor, will be free from defects, and further warrants that our products, when operated in accordance with operating instructions, will perform the work for which they are designed. In the event that our Distributor feels items are defective, samples must be returned with a Quality Complaint Form and a explanation of a problem to our Quality Control Department for testing. Products that are proven to be defective, after testing, will be replaced, per customer request, and credit issued against an original invoice. DCM Clean-Air Products, Inc. is not liable for compensatory damages beyond this limited warranty.

PRINTING ERRORS:

Every effort is made to eliminate errors in the printing of DCM Clean-Air Products, Inc.'s publications. Should you find any errors, we would appreciate you letting us know. We express our appreciation in advance for your diligence and consideration, but we can make no changes to our policies because of any printing errors.
